Warranty

LIMITED WARRANTY TO ORIGINAL PURCHASER

MONOPRICE warrants the equipment it manufactures to be free from defects in material and workmanship for the following limited warranty period:

Twelve (12) months parts and labor

If equipment fails because of such defects and MONOPRICE is notified within twelve (12) months from the date of shipment, MONOPRICE will, at its option, repair or replace the equipment, provided that the equipment has not been subjected to mechanical, electrical, or other abuse or modifications.

Equipment that fails under conditions other than those covered will be repaired at the current price of parts and labor in effect at the repair. Such repairs are warranted for ninety (90) days from the day of reshipment to the buyer.

This warranty is in lieu of all other warranties expressed or implied, including without limitation, any implied warranty or merchantability or fitness for any particular purpose, all of which are expressly disclaimed.

The information in this manual has been carefully checked and is believed to be accurate. However, MONOPRICE assumes no responsibility for any inaccuracies that may be contained in this manual. In no event will MONOPRICE, be liable for direct, indirect, special, incidental, or consequential damages resulting from any defect or omission in this manual, even if advised of the possibility of such damages. The technical information contained herein regarding HDMI switcher features and specifications is subject to change without notice.

Note:

- ☞ Mount the switcher away from sources of electromagnetic or radio frequency interference, and also away from heat and moisture.
- ☞ To ensure optimum performance, you should use MONOPRICE's high quality cables with this product.

OWNERS MANUAL

MONOPRICE

H5-104

1 input, 4 output HDMI Splitter

MONOPRICE

H5-104

1 input, 4 output HDMI Splitter

Thank you for your purchase of the MONOPRICE HDMI Splitter. We always strive to offer the finest quality product at the best possible price. Your complete satisfaction is important to us.

The HDMI Splitter is designed to make your HDTV experience more comfortable, productive and less expensive. The HDMI Splitter offers solutions for Home Theater, A/V installations, bars and pubs, schools and corporate training environments.

The HDMI Splitter sends the same video output to four HDTV digital screens. It is a flexible solution that accommodates multiple displays. Simply connect your HDTV displays to the splitter's display output. The HDMI Splitter will equalize the HDMI signal as well as support long length cable applications.

Features and Characteristics

- Connect one HDMI sources to up to four HDTV display devices
- Maintains 480i, 480p, 720p, 1080i and 1080p resolutions
- Maintains highest HDMI single link video resolution and digital audio signal
- Supports HDCP compliant devices
- HDMI or DVI-HDMI cables are used to connect to the input and splitter outputs
- Active output channels are displayed on the front panel LED's, which are automatically activated when a cable is connected to the corresponding output.
- Can be connected in series with a MONOPRICE HDTV HDMI switcher for connection of multiple sources to multiple display devices.

Package Contents

- ☑ 1x HDMI 1X4 HDMI splitter
- ☑ 1x 6VDC 2A power supply
- ☑ 1x User Manual

Connecting the HDMI Splitter

- ⇒ You can mount the splitter either on a flat horizontal surface, or hang on a vertical surface using the keystone slots in the base of the unit.
- ⇒ Connect the HDMI cables from the HDTV sources into the HDMI Splitter inputs.
- ⇒ Connect the cable from your display (monitor or projector) into the HDMI outputs of the HDMI Splitter.
- ⇒ Plug the 6VDC power supply into the HDMI Splitter.

Note: When adding more output ports to an existing working configuration, it might be necessary to push the "Reset" button on the Splitter to activate the new port.

INSTALLATION TIP:

If you want to connect multiple HDMI sources to multiple HDMI supported display devices, simply connect the output of a MONOPRICE HDTV switcher to the input of the HDMI 1X4 splitter, and then on to each display. The high quality circuits ensure the maintenance of the full 1.65Gbps bandwidth and functionality of the switcher remains unchanged.
