

Keymox™

4-Port USB 3.0 Hub for Windows, Mac, and Tablet Devices

Expand One USB Port to Four for Fast and Reliable Data Transfer Anywhere

Upgrade your connectivity effortlessly with the KEYMOX 4-Port USB 3.0 Hub—the perfect companion for expanding your device’s potential. Engineered for versatility, it transforms a single USB port into four, supporting a wide range of devices such as flash drives, mice, keyboards, and external hard drives—making it perfect for your MacBook, Surface Pro, XPS, or PC.

With SuperSpeed data transfer rates up to 5Gbps, you can move large files, including HD movies, in just seconds. Its compact, lightweight design fits seamlessly into your lifestyle, whether at home, in the office, or on the go. Thanks to plug-and-play functionality, setup is effortless—no drivers or software required.

Note: This hub is optimized for data transfer and is not designed for charging high-power devices, as total output is limited to 5V / 0.9A. For best performance, keep connected devices within a combined power draw of 900mA. Compatible with Windows, Mac OS X, and Linux, the KEYMOX hub ensures broad compatibility across systems. Streamline your workspace and stay productive anywhere with this efficient, portable solution for all your peripheral needs.

- Expands connectivity by converting one USB port into four, allowing multiple device connections simultaneously
- SuperSpeed data transfer rates up to 5Gbps; quickly syncs large files and HD movies
- Wide compatibility with various devices, including USB cables, flash drives, mice, keyboards, external hard drives, and more
- Compact and lightweight design makes it portable and minimizes clutter—ideal for travel, home, and office use
- Effortless setup: no software or drivers required; plug-and-play operation
- Operating system support ensures compatibility with Windows, Mac OS X (10.6-10.12 and up), and Linux (2.6.14 and up)
- Data-only ports are intended for data transfer and not recommended for charging devices, especially those with high power demands

EXTRA USB 3.0 PORTS

Expand a single computer USB port into four, providing enhanced connectivity and efficient device management.

SUPERSPEED DATA TRANSFER

Data can be transferred at speeds of up to 5Gbps through four ports. This rate allows for the transfer of a full HD movie within a short period of time.

BROAD COMPATIBILITY

Featuring four USB 3.0 ports, this device offers broad compatibility with a range of peripherals, including USB cables, flash drives, mice, keyboards, and more.

Full Specs

P/N	48444
Connection Type	1x USB-A 3.0
USB Ports	4x USB-A 3.0
Supports	Windows, Mac OS X 10.6 and up, Linux 2.6.14 and up
Max USB Transfer Rate	5 Gbps
Max Current	0.9 A @ 5 VDC
RoHS Compliant	Yes

PACKAGE CONTENTS

- 1x 4-Port USB 3.0 Hub for Windows, Mac, and Tablet Devices
