The following steps will assist in updating the firmware on your 35435 Monoprice Mini SLA Printer.

1. Download the update.bin file from the product page for the 35435 Monoprice Mini SLA

2. Extract the version 1.77-1 file from the now downloaded zip file

3. Load the file onto a blank SD card. The card should be no more than 4Gbs.

4. With the unit powered on, insert the SD card into the printer's SD card slot.

6. Navigate to the 'Print' screen in the menu installed on the

printer.

7. Once in the Print menu select the 'update.bin' file you uploaded earlier and press print

8. The printer will reboot and may appear to freeze momentarily. Once the update is complete the printer will return to the Main loading screen and then the main menu will be displayed.

9. Load the version 3.80-1 to the SD card

10. Repeat steps 4 through 7 to updated to the latest version.

The new firmware version should now be displayed in the lower right hand corner of the LCD menu display. Congratulations! The printer's firmware has been successfully updated!
