Safety Warnings and Guidelines

To prevent personal injury or damage to your equipment, please read and adhere to the following safety warnings and guidelines:

- Do not expose this product to water or moisture of any kind. If exposed to moisture, immediately unplug the device, shake out any liquid, and allow it to dry completely before attempting to use it again.
- Do not place objects filled with liquid, such as a vase or drinking glass, on or near this device.
- Never handle this device with wet hands or when standing on or near water or other liquids.
- Do not attempt to open this device. There are no user serviceable parts inside.
- Unplug this device during lightning storms and any time it will go unused for a lengthy period of time.
- Do not place this device on or near any heat source, such as a heater, radiator, or fireplace.
- Do not use if the device is physically damaged.
- This device contains electronic components and should only be disposed of in accordance with local regulations.

Package Contents

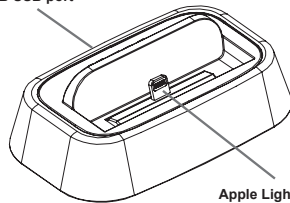

Please take an inventory of the package contents to ensure you have all the items listed below. If anything is missing or damaged, please contact Monoprice Customer Service for a replacement.

- 1x Charge/Sync docking station with Lightning™ connector
- 1x USB charge/sync cable (USB A to USB mini-B)
- 1x User's manual

Operation

1. Place the docking station on a flat, level surface.
2. Plug one end of the included USB charge/sync cable into the USB mini-B port on the back of the docking station. Plug the other end into a USB charging/power source (for charge only) or into the USB port of a computer (for charge and sync).
3. Insert your iPhone 5/5s/5c into the cradle on the docking station, taking care to ensure that the Lightning connector is fully inserted into the phone. If you are using a case and the phone will not fit securely in the cradle, remove the case before using the docking station.
4. Your phone will alert you when it is fully charged.

Mini-B USB port

Apple Lightning connector

Specifications

Model: 11009
Input Connector: USB mini-B
Input Power: 5 VDC, 1000mA
