

# Select 4 Inch 2-Way Bookshelf Speakers (Pair)

## Quick Install Guide

### SAFETY WARNINGS AND OPERATING GUIDELINES

- These speakers are for indoor use only. Do not expose these speakers to water or moisture of any kind.
- If operating these speakers in a humid environment, ensure that no condensation occurs. Condensation can cause damage to the speaker cones.
- Clean using a soft, dry cloth only. Do not use chemical cleaners, solvents, or detergents. For stubborn deposits, moisten the cloth with warm water.

### CUSTOMER SERVICE

The Monoprice Customer Service department is dedicated to ensuring that your ordering, purchasing, and delivery experience is second to none. If you have any problem with your order, please give us an opportunity to make it right. You can contact a Monoprice Customer Service representative through the Live Chat link on our website [www.monoprice.com](http://www.monoprice.com) during normal business hours (Mon-Fri: 5am-7pm PT, Sat-Sun: 9am-6pm PT) or via email at [support@monoprice.com](mailto:support@monoprice.com)

### PACKAGE CONTENTS

Please take an inventory of the package contents to ensure you have all the items listed below. If anything is missing or damaged, please contact Monoprice Customer Service for a replacement.

- 2x 4-inch bookshelf speakers
- 8x Adhesive rubber feet

### INSTALLATION

- For the best quality sound, the speakers should be positioned symmetrical to your listening location and spaced at least 5 inches from the wall.
- Ensure that any mounting location is capable of supporting the full weight of the speakers.
- For best results, the speakers should be mounted in such a way that the tweeters are at ear level when seated in your listening position.

- Use the included adhesive rubber feet if placing the speakers on a flat surface, such as a shelf or table.

## CONNECTION

- Ensure your amplifier is powered **OFF** before making any connections.
- For best results, use the thickest gauge speaker wire that can be supported by the binding posts on your amplifier and these speaker.
- It is recommended to use banana or pin plugs to make the connections.
- For best results, ensure that both speaker wires are the same length. This ensures that the overall impedance is the same for each speaker.
- Ensure that there are no stray wire strands at the connection points.
- Take care to maintain proper polarity in the speaker connections. Use speaker wire with clear polarity markings.
- Ensure that your amplifier is stable down to 6 ohms impedance.

## TECHNICAL SUPPORT

Monoprice is pleased to provide free, live, online technical support to assist you with any questions you may have about installation, setup, troubleshooting, or product recommendations. If you ever need assistance with your new product, please come online to talk to one of our friendly and knowledgeable Tech Support Associates. Technical support is available through the online chat button on our **website [www.monoprice.com](http://www.monoprice.com)** during regular business hours, 7 days a week.
