  - All keys
- 8** Cycles through four automatic entertainment backlight patterns
- 9** Ripple mode enable
- 0** Single key follow/trace mode enabled

## **User Defined Modes**

You can define up to three custom backlighting layouts. First, select which of the three modes to define by holding down the **FN** key and pressing either **F9**, **F10**, or **F11**. Now press individual keys to toggle backlighting on or off. Once you are happy with the result, hold down **FN** and press the same function key to save the settings. To use your settings, press **FN+F12** to cycle through the three custom layouts. Note that the recording process will cancel after 30 seconds of inactivity.

## **Technical Support**

Monoprice is pleased to provide free, live, online technical support to assist you with any questions you may have about installation, setup, troubleshooting, or product recommendations. If you ever need assistance with your new product, please come online to talk to one of our friendly and knowledgeable Tech Support Associates. Technical support is available through the online chat button on our website [www.monoprice.com](http://www.monoprice.com) during regular business hours, 7 days a week. You can also get assistance through email by sending a message to [tech@monoprice.com](mailto:tech@monoprice.com)
