

Monoprice™
8-Port Cat6 Data Module

P/N **21653**
Quick Installation Guide

PARTS INCLUDED

1. 8-Port Cat6 Data Module

TOOLS NEEDED

1. Impact Punch-Down Tool with 110 Blade

Wiring Diagram:

- 1** Align the mounting pins of the Data Module with holes in the back of your Telecommunication Enclosure and lock Data Module into place.
- 2** Pull the Cat 5e (or higher rated) cables into your Telecommunication Enclosure from one of the side knockouts.
- 3** Install Cat 5e (or higher rated) cables from each location in the house to the Data Module. Match color coding of the wires to the colors on the 110 IDC connectors.
- 4** The wires should be punched down to the 110 IDC connectors using an industry standard punch-down tool. Use the T568A wiring configuration as shown above.

CAUTION

- Never install low voltage wiring during lightning storms.
- Never install low voltage wiring in wet locations unless the wire is specifically designed for wet locations.
- Never touch un-insulated low voltage wires or terminals unless the wire has been disconnected at its source.
- Do not use this product near water. For example: near a bath tub, wash bowl, kitchen sink, laundry tub, in a wet basement or near a swimming pool.
- Consult and comply with local building and electrical codes before and during installation of any equipment.
- Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltages.
- Use caution when installing low voltage cables.
- Read and understand all instructions.
- Save these instructions.

NOTE: Only Licensed Professionals Should Install this Product.
