

2-Port DisplayPort® 1.2 to HDMI® Multi-Stream Transport (MST) Hub

P/N 21974

Quick Start Guide

INTRODUCTION

This DisplayPort® to HDMI® Multi-Stream Transport Hub allows you to distribute a single DisplayPort source to two HDMI displays. You can mirror a single video stream to both displays or configure your PC to output multiple video streams over the single DisplayPort output to increase your desktop area. It supports video resolutions up to 4K@30Hz for a single stream, which can be mirrored to both displays, or 4K@30Hz for two streams. It is fully compliant with the DisplayPort 1.2 specification and is backwards compatible with all previous specifications.

PACKAGE CONTENTS

- 1x 1x2 DisplayPort to HDMI Multi-Stream Transport Hub
- 1x Quick Start Guide

INSTALLATION

1. Ensure that all equipment to be connected is powered off and unplugged from its power source.
2. Using a High Speed HDMI® Cable, plug one end into the input on your display, then plug the other end into one of the outputs on the hub. Repeat for the other display.
3. Plug the hub into the DisplayPort® output of your computer or other source device.
4. Plug in and power on all connected devices. Start video playback on your source device, then verify that you can see the video on both displays.

REGULATORY COMPLIANCE

Notice for FCC

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Modifying the equipment without Monoprice's authorization may result in the equipment no longer complying with FCC requirements for Class B digital devices. In that event, your right to use the equipment may be limited by FCC regulations, and you may be required to correct any interference to radio or television communications at your own expense.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Notice for ISED Canada

Caution

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
