

Monoprice™

Compact 2-Port 45W GaN Charger with USB-C® & USB-A Ports: For Laptops, Tablets, and Phones

Multi-Device Fast Charging from a Single Compact Charger Powered by GaN Technology

The Monoprice™ Compact 2-Port 45W GaN Charger with USB-C® & USB-A Ports is an all-in-one powerhouse that charges multiple devices. With USB Power Delivery technology, the Type-C® port supplies up to 45W. When used by itself as a single port output, this unit allows you to charge notebook computers (like the latest MacBook Air® laptop) from 0 to 72% within an hour, a standard mobile phone from 0 to 55% in 30 minutes. Moreover, simultaneously fast charge up to 2 smaller devices (like the iPhone® & iPad® phone and tablet) and go from 0 to 50% power in 30 minutes. GaN technology increases power efficiency while shrinking the circuit size, providing a compact architecture perfect for fitting into small spaces or taking with you on the go. The folding prong design is there for easy travel-friendly packing. To ensure the best possible performance, we put our chargers through rigorous 3rd party laboratory testing to ensure the performance and protection from overheating, overcharging, excessive current, and short circuits work for you as they are designed to.

- Single USB-C port supplies up to 45W for fast charging laptops (like the latest MacBook Air laptop).
- Dual port for fast charging a mobile phone and tablet together.
- Small and Travel Friendly: features a folding prong design and a compact size enabled by GaN technology, perfect for tight spaces and travel.
- Universal compatibility: regardless of brand or manufacturer, this charger is compatible with over 1,000 USB-powered devices.
- Tested and certified via independent ETL-certified laboratories to ensure safety.

HIGH POWER, FAST CHARGING

Single USB-C port supplies up to 45W, enough for charging laptops but can also be used to charge tablets or phones as only proper amount of power will be drawn by device.

ONE CHARGER, MORE DEVICES

Dual ports supply up to 25W & 18W for fast charging tablets or phones simultaneously.

Monoprice™

Compact 2-Port 45W GaN Charger with Dual Fast-Charging USB-C® Ports: For Laptop, Tablets, and Phones Multi-Device Fast Charging from a Single Compact Charger Powered by GaN Technology

The Monoprice™ Compact 2-Port 45W GaN Charger with dual USB-C® ports is an all-in-one powerhouse that charges multiple devices. With USB Power Delivery technology, the Type-C® port supplies up to 45W. When used by itself as a single port output, this unit allows you to charge notebook computers (like the latest MacBook Air® laptop) from 0 to 72% within an hour, a standard mobile phone from 0 to 55% in 30 minutes. Moreover, simultaneously fast charge up to 2 smaller devices (like the iPhone® & iPad® phone and tablet) and go from 0 to 50% power in 30 minutes. GaN technology increases power efficiency while shrinking the circuit size, providing a compact architecture perfect for fitting into small spaces or taking with you on the go. The folding prong design is there for easy travel-friendly packing. To ensure the best possible performance, we put our chargers through rigorous 3rd party laboratory testing to ensure the performance and protection from overheating, overcharging, excessive current, and short circuits work for you as they are designed to.

- Single USB-C port supplies up to 45W for fast charging laptops (like the latest MacBook Air laptop).
- Dual port for fast charging a mobile phone and tablet together.
- Small and Travel Friendly: features a folding prong design and a compact size enabled by GaN technology, perfect for tight spaces and travel.

- Tested and certified via independent ETL-certified laboratories to ensure safety.

HIGH POWER, FAST CHARGING

Single USB-C port supplies up to 45W, enough for charging laptops (but can also be used to charge tablets or phones as only proper amount of power will be drawn by device).

ONE CHARGER, MORE DEVICES

Dual ports supply up to 25W & 20W for fast charging tablets or phones simultaneously.

Monoprice™

Compact 3-Port 65W GaN Charger: For Laptop, Tablets, and Phones

Multi-Device Fast Charging from a Single Compact Charger Powered by GaN Technology

The Monoprice™ Compact 3-Port 65W GaN Charger is an all-in-one powerhouse that charges multiple devices. With USB Power Delivery technology, the Type-C® port supplies up to 65W that's more than enough to fast charge popular full-sized notebook computers (like the MacBook Pro®, MacBook Air®, Dell XPS™, and ThinkPad® laptops). Its Intelligent Power Distribution technology automatically allocates the optimal amount of power to each connected device and can charge up to 3 devices simultaneously, including phones, tablets, and laptops. GaN technology increases power efficiency while shrinking the circuit size, providing a compact architecture perfect for fitting into small spaces or taking with you on the go. The folding prong design is there for easy and travel-friendly packing. Our chargers are tested and certified by independent ETL-certified labs to ensure safe performance and protection from overheating, overcharging, excessive current, and short circuits.

- With up to 65W of charging power, it's more than enough to fast charge even larger USB devices like laptops.
- Multi-device charging: simultaneously charge up to 3 devices, including laptops, tablets, and phones.
- Intelligent Power Distribution: allocates the optimal amount of power to each charging device.
- Universal compatibility: regardless of brand or manufacturer, this charger is compatible with over 1,000 USB-powered devices.
- Tested and certified via independent ETL-certified laboratories to ensure safety.

HIGH POWER, FAST CHARGING

Single USB-C port supplies up to 65W, enough for charging full-sized laptops (but can also be used to charge tablets or phones as only proper amount of power will be drawn by device).

ONE CHARGER, MORE DEVICES

Three ports supply up to 45W/7.5W/7.5W for fast charging a laptop and tablets or phones simultaneously.

Monoprice™

Compact 4-Port 100W GaN Charger with 3 USB-C® & 1 USB-A Ports: For Laptop, Tablets, and Phones

Multi-Device Fast Charging from a Single Compact Charger Powered by GaN Technology Intelligent Power Distribution

The Monoprice™ Compact 4-Port 100W GaN Charger with 3 USB-C® & 1 USB-A Ports is an all-in-one powerhouse that charges multiple devices. With USB Power Delivery technology, two Type-C® ports supply up to 100W single-port output—that's more than enough to fast charge popular full-sized notebook computers (like the MacBook Pro®, MacBook Air®, Dell XPS™, and ThinkPad® laptops). It is also powerful enough to charge up to two laptops at once—a full-sized one (like a MacBook Pro® laptop) and a lighter-weight one (like a MacBook Air® laptop). Charge up to 4 devices simultaneously, like phones, tablets, and laptops, with Intelligent Power Distribution technology automatically allocating the optimal amount of power to each device, and never worry about overcharging any device. GaN technology increases power efficiency while shrinking the circuit size, providing a compact architecture perfect for fitting into small spaces or taking with you on the go. The folding prong design is there for easy and travel-friendly packing. Our chargers are tested and certified by independent ETL-certified labs to ensure safe performance and protection from overheating, overcharging, excessive current, and short circuits.

- Single USB-C port supplies up to 100W for fast charging laptops (like the latest MacBook Air laptop).
- Multi-device charging: simultaneously charge up to 4 devices, including laptops, tablets, and phones.
- Small and Travel Friendly: features a folding prong design and a compact size enabled by GaN technology, perfect for tight spaces and travel.
- Universal compatibility: regardless of brand or manufacturer, this charger is compatible with over 1,000 USB-powered devices.
- Tested and certified via independent ETL-certified laboratories to ensure safety.

HIGH POWER, FAST CHARGING

Single USB-C port supplies up to 100W, enough for charging laptops (but can also be used to charge tablets or phones as only proper amount of power will be drawn by device).

ONE CHARGER, MORE DEVICES

Four ports supply up to 45W/30W/7.5W/7.5W for fast charging laptops, tablets, or phones simultaneously.
