

Monolith by Monoprice™

Easel Style Speaker Stand, 18in, 24in, 28in, 32in

Compatible with Most Bookshelf Speakers

The Monolith Easel Style Speaker Stand is an elegant and aesthetically pleasing stand for your home entertainment system. Each stand features sturdy steel tube construction for maximum stability, and is powder coated for an attractive, pleasing appearance. Isolate your speakers from unwanted resonances by filling the hollow tubes with either sand, kitty litter, or lead shot. The speaker stand is supplied with adjustable spikes, allowing it to pierce through your carpet to further isolate from floor vibrations. An adjustable top plate made of MDF ensures you can align and display your speakers at any angle or position you need.

- 18", 24", 28", 32" tall and 14", 16", 18", 20" wide
- Sturdy steel tube construction
- Adjustable top plate made from MDF wood
- Powder-coated finish
- Compatible with most bookshelf speakers
- Adjustable spikes
- Supports speakers weighing up to 100 lbs.

ADJUSTABLE SPIKES

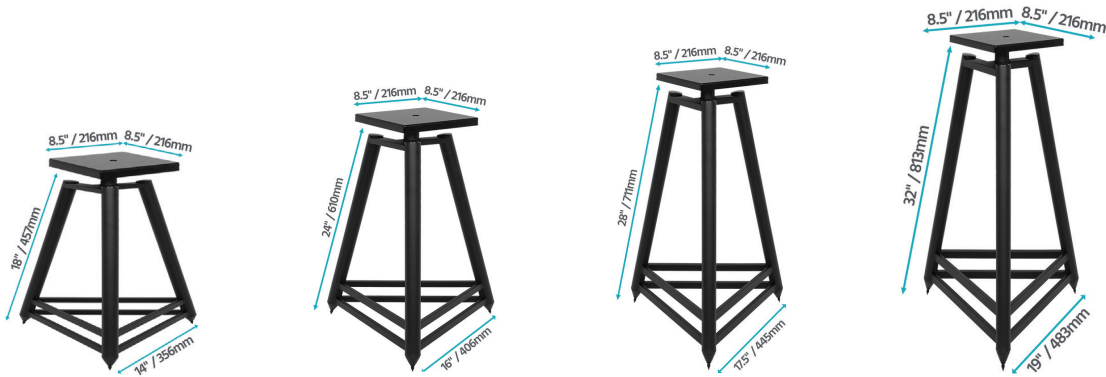

Each stand comes with adjustable spikes to pierce through your carpet and isolate both stand and speaker from floor vibrations and resonances.

ADJUSTABLE TOP PLATE

The rotating top plate provides a customizable functionality, so you can freely align and display your speakers to any position or angle of your choosing.
