

Monoprice™

2x2 Ceiling Tile Speaker for Music & Paging (each)

8" Full-Range Ceiling Tile Speaker Provides Drop-in Fit for 2'x2' Suspended Ceilings

Transform your commercial space with the Monoprice™ Drop Ceiling Tile Speaker for Music & Paging—a dependable, high-performance audio solution crafted for effortless T-bar ceiling integration. Replacing standard 24" ceiling tiles directly, this speaker also adapts seamlessly to 24" x 48" panels with a simple tile cut and support bar installation. Designed for easy, hassle-free setup, it fits smoothly into existing drop ceiling systems, making it the ideal choice for retail stores, restaurants, schools, shopping centers, and other business environments.

Featuring a large 8" driver, the speaker delivers clear, full-range audio that enriches the ambiance of any space. The high-sensitivity design ensures ample volume output with minimal amplifier power, enabling you to maintain sound quality using budget-friendly equipment or expand your system without significant additional investment.

The Monoprice™ Drop Ceiling Tile Speaker is equipped with five selectable transformer taps compatible with both 70-volt and 8-ohm systems, offering flexibility to customize amplifier power and audio output according to specific requirements. This enables optimal sound system efficiency and coverage across a wide variety of spaces.

With its discreet, low-profile grill, the speaker blends seamlessly into any ceiling, presenting a modern and unobtrusive appearance. It supports robust 20W max/10W RMS power handling, ensuring consistent and dependable audio performance.

- Designed for commercial background audio and paging
- Perfect for schools, offices, retail stores, restaurants, and more
- Direct drop-in replacement for drop ceiling acoustic tiles
- Sealed 8" design has excellent bass response
- Five transformer taps with settings for both 70-volt and 8-ohm systems provides maximum installation flexibility
- 40W RMS/80W max power handling

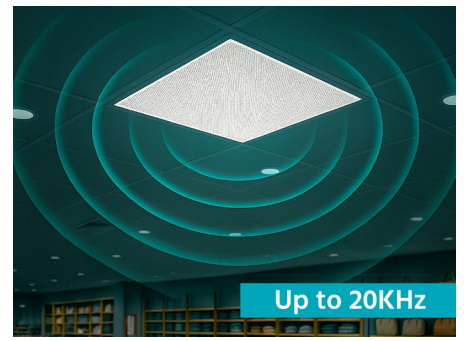

BACKGROUND AUDIO & PAGING

The perfect solution for background music and paging in retail stores, restaurants, schools, malls, and other commercial applications.

DROP-IN DESIGN

The 24" frame drops directly into T-bar acoustic ceiling installations for a clean, professional look

SEALED TWO-WAY DESIGN

The sealed 8" woofer design provides great bass response down to 75Hz, and the mylar dome tweeter extends the high frequency output up to 20KHz.

Full Specs

Product ID	44950
Model Number	BS-7C-248PT
Woofer size	8"
Woofer cone material	Paper
Woofer magnet size	10oz
Driver size	8"
Driver material	Mylar
Tweeter magnet material	Neodymium
Frequency response	75Hz-20KHz
Power handling RMS	40W
Power handling Max	80W
Sensitivity	92dB
Impedance	8 Ohm
Transformer tap settings	1.5W, 2.5W, 5W, 10W, 8 Ω
Dimensions	23.8" x 23.8" x 3.9" 605 x 605 x 100mm
Weight	13.7lb (6.2kg)
Color	White
Packaging Method	(Corrugated Box, Poly Bag, etc.) Corrugated brown box
