User Manual

SAFETY WARNINGS AND GUIDELINES

Please read this entire instruction manual before you start installation and assembly, paying extra attention to these safety warnings and guidelines. If you have any questions regarding any of the instructions or warnings, please contact your local distributor for assistance. Please keep this manual in a safe place for future reference.

- Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty.
- Please closely follow the assembly instructions. Improper installation may result in damage or serious personal injury.
- DO NOT EXCEED THE MAXIMUM LISTED WEIGHT CAPACITY. Use with products heavier than the rated weights indicated may result in instability causing possible injury.
- Always use an assistant or a mechanical lifting device to safely lift and position heavy products.
- Safety gear and proper tools must be used. This product should only be installed by professionals.
- Make sure that the supporting surface will safely support the combined weight of the equipment and all attached hardware and components.
- Tighten screws firmly, but DO NOT OVERTIGHTEN. Overtightening can cause product damage that greatly reduces the holding power.
- Keep a clear area and distance from moving parts when using the product.
- Use only as intended. Never stand, hang, or climb on the product.
- This product is intended for indoor use only. Using this product outdoors could lead to product failure and personal injury.
- This product may contain small items that could be a choking hazard if swallowed. Keep children away unless the product is intended for their use, and all instructions and manuals are fully reviewed and understood by them.
- Ensure that you have received all parts according to the component checklist prior to installation. If any parts are missing or faulty, contact your place of purchase for a replacement.
- Check that the product is secure and safe to use at regular intervals (at least every three months).

INTRODUCTION

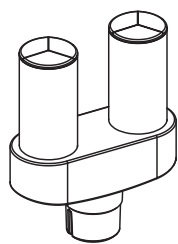

The Heavy-Duty Dual-Monitor Gas-Spring Desk Mount lets you place your screens wherever you want it. Suspending the monitor up off your desk, the arm reduces desktop clutter and frees up valuable desk space. The counterbalanced gas-spring arm lets you easily adjust the monitor to the most comfortable position, helping reduce strain on your neck, shoulders, and eyes. It also enables endless monitor adjustment and smooth movement in any direction, including height up and down, extension/retraction forward and back, monitor tilt, swivel, and rotation for ideal ergonomic alignment. This mounting arm is rated for ultrawide monitors measuring up to 35 inches, making it perfect for any home or office.

FEATURES

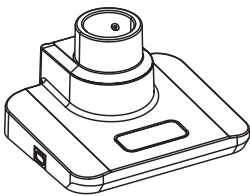

- Compatible with displays with 75x75 and 100x100 VESA® patterns
- Detachable VESA® mount plates
- Constructed of high-grade aluminum and steel
- Supports two displays measuring up to 35 inches each
- Supports two displays weighing up to 44 pounds each
- Gas-spring pneumatic assist makes free motion effortless
- Displays can be individually tilted and swiveled ±45° to get the optimum viewing angle
- Rotate displays ±180° to easily switch between landscape and portrait display orientations
- Cable management clips help keep your workstation neat and tidy
- Easy installation flexibility with clamp or grommet mounting

To properly balance the arm with monitor mounted, adjust the spring tension using the supplied Allen key as follows:

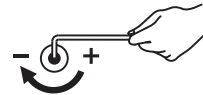

First, position and firmly hold the arm horizontally as shown. Ask for assistance should you require it.

CAUTION: To avoid damage to monitor or mount, always keep the arm in a horizontal position while making adjustments. Again, ask for assistance if required.

If the arm **drops**, turn the adjustment screw counterclockwise until it stays in a horizontal position.

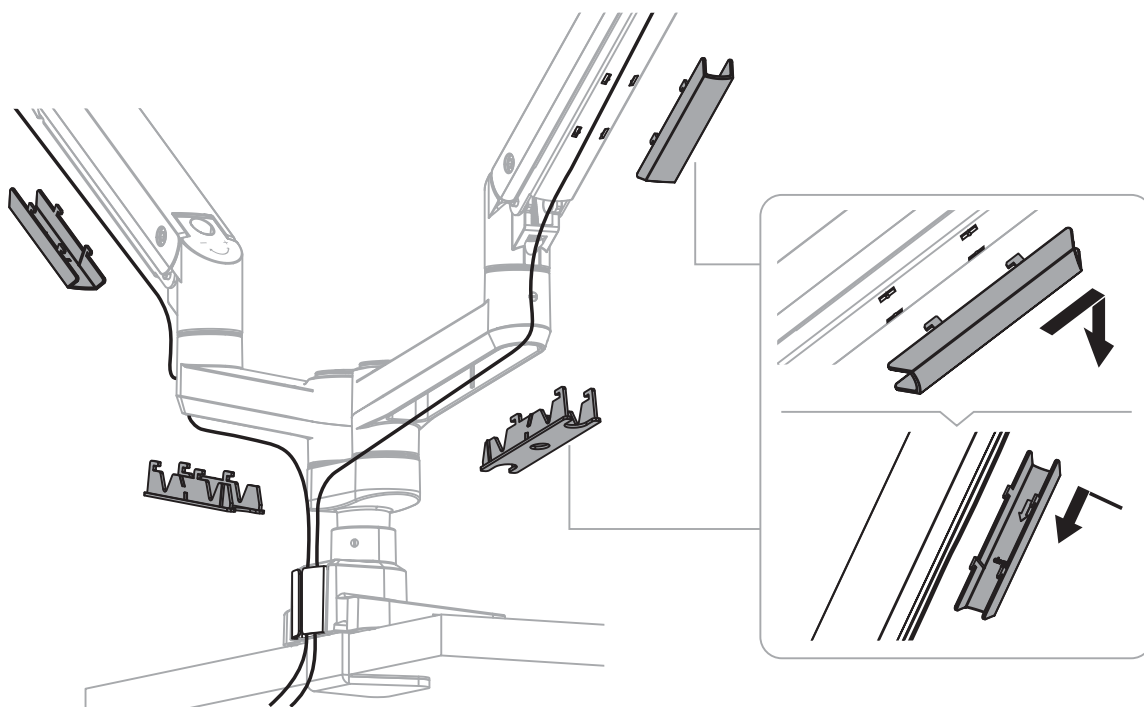

If the arm **rises**, turn the adjustment screw clockwise until it stays in a horizontal position.

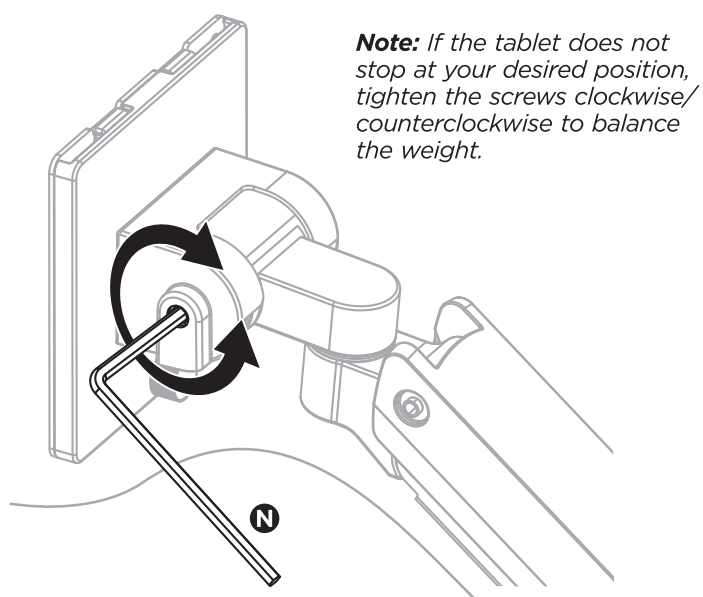

CAUTION: **DO NOT** overtighten the screws.
