Wireless Car Charging Mount – Qi2® Certified, 15W, for iPhone® 12-17 & Galaxy S25/S26 Series

Secure and Effortless Power for Every Drive

This Qi2-certified wireless car charging mount delivers fast, reliable charging while keeping your smartphone securely positioned and easy to view on the road. Built on the Qi2 standard with Magnetic Power Profile (MPP), it ensures precise magnetic alignment for more consistent power delivery and improved charging efficiency—helping eliminate the misalignment and intermittent charging issues common with traditional wireless car chargers. With support for up to 15W of wireless charging for compatible devices, it keeps your phone powered throughout daily commutes and longer drives.

Designed for real-world driving conditions, the integrated magnetic mounting system holds your phone firmly in place, even over bumps and uneven roads. A 360-degree ball joint allows quick adjustment between portrait and landscape orientations, making it easy to follow navigation, manage calls, or control music hands-free. The built-in vent clamp provides secure, tool-free installation on most vehicle air vents, keeping your device within a comfortable and safe viewing position.

For a truly hassle-free setup, the mount includes a USB-C® PD car charger and USB-C cable, delivering up to 20W of input power to support optimal wireless charging performance right out of the box. Broad compatibility ensures seamless charging for iPhone 12–17 series devices; Samsung® Galaxy S25 Ultra, S25+, S25, and S26 models (with a Qi2- or MagSafe®-compatible case); and other Qi2-enabled smartphones. Compact, lightweight, and thoughtfully engineered, this wireless car charging mount is a dependable everyday solution for safe, convenient charging on the go.

- Qi2-certified magnetic wireless charging ensures precise alignment using Magnetic Power Profile (MPP) for more consistent and efficient charging
- Up to 15W wireless charging for compatible devices delivers reliable power during daily commutes and longer drives
- Strong magnetic hold keeps your phone securely mounted even on bumpy roads
- USB-C Power Delivery input up to 20W supports optimal charging performance with the included car charger
- 360-degree adjustable ball joint allows easy switching between portrait and landscape viewing
- Vent mount with built-in clamp provides stable, tool-free installation on most vehicle air vents
- Ready to use out of the box; includes a USB-C PD car charger and USB-C cable
- Wide smartphone compatibility supports iPhone 12–17 series and Samsung Galaxy S25 Ultra, S25+, S25, and S26 models with compatible cases

PRECISION-ALIGNED QI2 WIRELESS CHARGING

Qi2 certification with Magnetic Power Profile (MPP) ensures your phone snaps into the optimal charging position every time, delivering more consistent wireless power and reducing the dropouts common with standard car chargers.

SECURE MAGNETIC MOUNTING FOR THE ROAD

A strong magnetic hold keeps your smartphone firmly in place, even over bumps and uneven pavement, so your device stays stable and visible while you focus on driving.

ADJUSTABLE VIEWING FOR NAVIGATION AND MEDIA

The integrated 360-degree ball joint allows quick adjustment between portrait and landscape orientations, making it easy to follow maps, manage calls, or control music hands-free.

Full Specs

P/N	48459
Product Type	Wireless Car Charging Mount
Wireless Charging Standard	Qi2 Certified with Magnetic Power Profile (MPP)
Maximum Wireless Output	Up to 15 W (Device-Dependent)
Input Power	USB-C Power Delivery
Maximum Input Power	Up to 20 W
Mounting Method	Vent Mount with Clamp
Magnetic Mounting	Yes
Viewing Adjustment	360-Degree Ball Joint
Orientation Support	Portrait and Landscape
Device Compatibility	iPhone 12–17 Series
Additional Compatibility	Samsung Galaxy S25 Ultra, S25+, S25, and S26 (Qi2- or MagSafe-Compatible Case Required)
Included Accessories	USB-C PD Car Charger, USB-C Charging Cable
Installation	Tool-Free
Color	Black
Use Environment	Automotive Interior

PACKAGE CONTENTS

- 1x Wireless Car Charging Mount
- 1x 20W Car Charger
- 1x USB-C 2.0 Charging Cable (5 feet)
- 1x User Manual
