Stage Right® Professional
Conferencing Supercardioid
Condenser Microphone

Stage Right™ Professional Conferencing Microphone

The Stage Right™ Professional Conferencing Microphone is meticulously designed to enhance your meetings, speeches, broadcasts, and recordings. Featuring advanced electro-acoustic circuits and premium-quality components, this microphone delivers exceptional audio performance. With outstanding clarity and warmth, the Stage Right™ Professional Conferencing Microphone ensures your voice is heard with precision and professionalism.

Installation and Operating Instructions

1. Battery Installation:

- Remove the battery cover located on the bottom of the microphone base.
- Insert 2 AAA batteries, ensuring correct polarity.

2. Assembly:

- Attach the microphone goose neck to the top of the microphone base.
- Tighten the collar to secure it in place.
- Install the windscreen over the microphone and adjust the flexible goose neck as needed.

3. Connection:

- Connect the audio cable to the rear of the microphone base.
- Plug the other end into your audio equipment.

4. Power On:

- Press the power button to turn on the microphone.
- Power on your audio equipment.

5. Indicator:

- The LED light near the microphone will illuminate RED, indicating that the power is on.

6. Operation:

- Speak into the microphone.
- Adjust the volume by turning the knob clockwise for higher volume and counter-clockwise for lower volume.

⚠ CAUTION

- Ensure that the microphone is not pointed directly at a speaker to prevent feedback.
- Maintain sufficient distance between the microphone and any nearby speakers to avoid feedback.
- Always remove the batteries when the microphone is not in use to prevent damage or leakage.

Notice for FCC

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Modifying the equipment without Monoprice's authorization may result in the equipment no longer complying with FCC requirements for Class B digital devices. In that event, your right to use the equipment may be limited by FCC regulations, and you may be required to correct any interference to radio or television communications at your own expense.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Notice for ISED Canada

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
