

Monoprice 12 Fiber Single-Mode and Multi-Mode Distribution Pigtails

The Monoprice 12 Fiber Single-Mode and Multi-Mode Distribution Pigtails are high-quality fiber optic cables meticulously engineered to ensure dependable and efficient performance within your networking infrastructure. They foster stable connections and minimize signal loss. Their suitability for implementation in data centers, telecommunications, and network installations make them a cost-effective solution for augmenting the velocity and dependability of your fiber optic network.

- Low insertion loss and high return loss ensure efficient signal transmission with minimal loss and excellent signal integrity.
 - High-quality ferrules utilize premium materials for enhanced durability and performance.
 - All assemblies are 100% factory tested, guaranteeing reliability and consistency in every unit.
- Good repeatability and interchange provide consistent performance across multiple connections and reconnections.
 - The Monoprice 12 Fiber Distribution Pigtail, with its 12 fiber strands, is a versatile tool that facilitates extensive connectivity and empowers network expansion.
