

Monoprice OM5 Multi-Mode Fiber Optic Cables

Optimize your network with the Monoprice OM5 Multi-Mode Fiber Optic Cables, tailored for cutting-edge data transmission and exceptional performance. Perfect for data centers, enterprise networks, and high-density installations, the OM5 patch cable offers extended reach and enhanced bandwidth. Monoprice OM5 Multi-Mode Fiber Optic Cables are ideal for network administrators and installation professionals seeking top-tier, high-speed connectivity solutions for their advanced network infrastructure. Designed to meet the demands of modern networks, the Monoprice OM5 Multi-Mode Fiber Optic Cables guarantee superior connectivity and efficiency.

- Supports 40/100 Gb Ethernet for ultra-fast data transfer
 - Multi-mode OM5 fiber with a 50-micron core providing high bandwidth over extended distances
 - Optimized for short wavelength division multiplexing (SWDM) and VCSEL laser transmission at 850 nm to 953 nm wavelengths
 - Superior signal integrity with minimal attenuation and crosstalk
- High-quality connectors ensuring secure and stable connections
 - Durable construction with a robust jacket for long-term use
 - Broad compatibility with diverse networking equipment and devices
 - UL® certified
