

Monoprice™

USB-A Male to USB-C® Female Adapter, 10Gbps High-Speed Converter

Seamlessly Upgrade Legacy USB-A Devices and Experience Fast Data Transfer

Effortless Connectivity and Fast Data Transfer

Upgrade your charging and connectivity experience with the Monoprice USB-A to USB-C® Adapter, designed to bridge the gap between legacy USB-A ports and modern USB-C devices. This versatile adapter effortlessly transforms older USB-A chargers into Type-C chargers, rejuvenating your tech setup for today's demands.

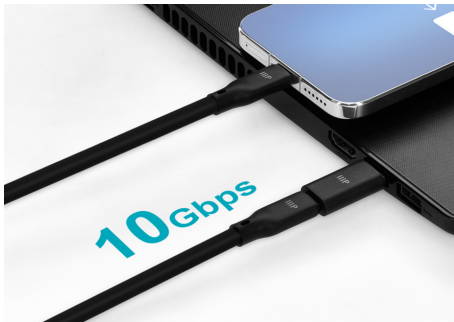

Supporting data transfer speeds up to 10Gbps—twice as fast as traditional USB 3.0—and up to 2A charging, it ensures your devices sync and power quickly and efficiently. Built for durability, the adapter features a high-quality chipset and withstands up to 10,000 plug-and-unplug cycles, delivering a stable and reliable connection every time.

The reversible USB-C connector eliminates guesswork by allowing insertion in either orientation, while the compact design makes it perfect for travel, office, or home use. With wide compatibility, it connects smartphones, tablets, laptops, external drives, and peripherals—including iPhone, iPad, Samsung Galaxy, and more.

Note: This adapter supports data transfer and charging but does not transmit video signals to monitors.

Whether transferring files, charging devices, or staying connected, the USB-A to USB-C Adapter delivers fast, reliable, and seamless performance across your devices.

- Effortlessly upgrade your USB-A charger to support modern USB-C devices, rejuvenating older plugs for current technology
- Supports blazing-fast data transfer speeds up to 10Gbps, twice as fast as traditional USB 3.0 connections
- Delivers robust 2A charging capability for efficient power delivery to smartphones, tablets, and more
- Features a reversible USB-C connector with full 10Gbps speed in either direction, eliminating frustration and simplifying use
- Bridges the gap between legacy USB-A ports and newer USB-C technology, ensuring seamless file transfers, charging, and continued device compatibility
- Compact and portable to easily slip into a laptop bag or pocket for travel
- Robust aluminum construction withstands daily wear and tear

ULTRA-FAST DATA
TRANSFER

Supports data transfer speeds up to 10Gbps, enabling rapid syncing and seamless management of large files between devices—twice as fast as USB 3.0.

UNIVERSAL
COMPATIBILITY

Bridges the gap between legacy USB-A ports and modern USB-C technology, ensuring you can connect and charge a wide range of devices, including the latest iPhone, Samsung Galaxy, and iPad models.

COMPACT AND
PORTABLE

Designed with portability in mind, this lightweight adapter easily fits into your laptop bag or pocket, making it an ideal companion for business trips, remote work, or on-the-go use.

Full Specs

P/N	47584
Upstream Connection Type	USB-A Male
Downstream Connection Type	USB-C Female
Maximum Data Transfer Rate	10 Gbps
Maximum Power Transfer	5 V / 9 V / 12 V / 15 V @ 2 A
Compatibility	USB 3.2 Gen 2 and Below
RoHS Compliant	Yes
Unit Dimensions (L x W x H)	1.6" x 0.6" x 0.3" (40 x 15.8 x 7.8 mm)
Product Weight	0.25 oz (7 g)

PACKAGE CONTENTS

1x Monoprice™ USB-A Male to USB-C Female Adapter
