

Monoprice™

Bidirectional USB-C® to DisplayPort® Cable – 4K60Hz, Thunderbolt 4/3 Compatible, Braided, 3ft, Black

High-Performance Two-Way Cable for Work, Streaming, and Gaming

Enjoy versatile, high-performance video connectivity with this bidirectional USB-C® to DisplayPort® cable. Connect USB-C laptops, tablets, and phones to DisplayPort monitors, or link DisplayPort-enabled PCs to USB-C monitors—all with a single, two-way solution. Supporting resolutions up to 4K at 60Hz, it delivers sharp visuals, smooth motion, and vibrant color for work, streaming, and gaming.

Built for reliability and style, this cable features a durable cotton-and-nylon braided jacket, a strong zinc alloy shell, and nickel-plated connectors that resist corrosion for long-term performance. Its plug-and-play design requires no drivers and supports both mirror and extended display modes, making it perfect for presentations, multitasking, or immersive setups. Whether you need USB-C to DP or DP to USB-C connectivity, this cable provides a clean, clutter-free solution for all your high-resolution display needs.

Lengths: 3, 6, and 10 feet

- Bidirectional functionality allows connection in either direction—USB-C to DisplayPort or DisplayPort to USB-C—for maximum versatility
- Supports 4K at 60Hz resolution to deliver crisp, clear visuals with smooth motion and vibrant color for work, streaming, and gaming
- Thunderbolt 4/3 compatibility ensures seamless integration with the latest laptops, tablets, docks, and monitors
- Mirror and extended display modes provide flexibility for presentations, multitasking, and immersive setups
- Premium construction features nickel-plated connectors, zinc alloy shells, and a cotton-and-nylon braided jacket for durability and style
- Corrosion-resistant connectors maintain consistent signal quality and reliable long-term performance
- Plug-and-play operation requires no drivers or external power, making setup quick and hassle-free
- Available in multiple lengths (3ft, 6ft, 10ft) so you can choose the perfect fit for your workspace or entertainment setup

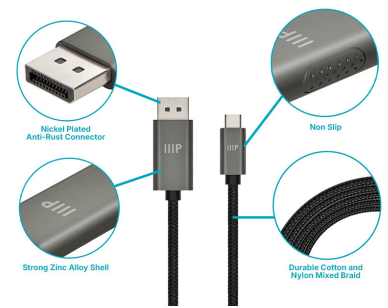

VERSATILE BIDIRECTIONAL CONNECTIVITY

Connect USB-C laptops, tablets, and phones to DisplayPort monitors or DisplayPort-enabled PCs to USB-C monitors with one cable that works in both directions.

CRYSTAL-CLEAR 4K AT 60HZ VIDEO

Enjoy sharp visuals, smooth motion, and vibrant color with full support for 4K resolution at 60Hz, perfect for work, gaming, and entertainment setups.

PREMIUM, DURABLE BUILD

Nickel-plated connectors, zinc alloy shells, and a cotton-and-nylon braided jacket combine for a cable that looks great, resists wear, and maintains reliable performance over time.

Full Specs

P/N	47724, 47725, 47726
Cable Type	Bidirectional USB-C to DisplayPort Cable
Video Standard	DisplayPort 1.4 (via USB-C DisplayPort Alt Mode)
Bandwidth	Supports 4K at 60 Hz (up to 32.4 Gbps)
Resolution Support	Up to 3840x2160 (4K) at 60 Hz
Display Modes	Mirror Mode, Extended Mode
Compatibility	Thunderbolt 4/3, USB-C DisplayPort Alt Mode Devices, DisplayPort Monitors
Connector Type	USB-C Male to DisplayPort Male (Bidirectional)
Connector Plating	Nickel-Plated
Connector Shell Material	Zinc Alloy
Cable Jacket Material	Cotton and Nylon Mixed Braided Jacket
Shielding	Shielded for Signal Integrity
Compliance	RoHS Compliant, Proposition 65
Available Lengths	3 ft (47724), 6 ft (47725), 10 ft (47726)
Color	Black
