

Monoprice™

12-Outlet Surge Protector Power Strip – 3600 Joules, 2 USB-C® + 1 USB-A (30W PD), 6ft Power Cord, Flat Plug, White

The Dependable Power Hub Built for the Way You Live and Work Today

Power up and protect your connected devices with the 12-Outlet Surge Protector Power Strip—the ultimate solution for modern homes, offices, and workstations that demand both performance and protection. Engineered with 3600 joules of surge protection, this high-capacity power strip safeguards valuable electronics such as computers, televisions, gaming consoles, home theater systems, and office equipment from damaging power surges, spikes, and electrical noise.

Designed for today’s digital lifestyle, the 12-Outlet Surge Protector Power Strip isn’t just a power strip—it’s a comprehensive charging hub. With twelve AC outlets, two USB-C ports, and one USB-A port, you can charge multiple devices simultaneously without the clutter of extra adapters. The integrated USB-C Power Delivery (PD) ports deliver up to 30W of fast charging—ideal for smartphones, tablets, laptops, and other USB-powered devices. Whether you’re streaming, gaming, working, or relaxing, your devices stay powered and protected all day long.

The surge protector features an electrical rating of 15A, 120V, 60Hz, and 1800W, providing dependable performance for even the most demanding environments. The EMI/RFI filtering (up to 40dB) ensures clean, stable power by minimizing electromagnetic and radio frequency interference—perfect for maintaining clear audio, sharp video, and stable data transmission in connected systems.

Built with safety and convenience in mind, this power strip includes a 2-in-1 Power & Circuit Breaker Switch that controls all outlets while offering overload protection. In the event of an electrical overload, the built-in circuit breaker instantly cuts power to prevent equipment damage and ensure user safety. The LED protection indicator provides a clear, at-a-glance status of surge protection and grounding, so you always know your devices are safe.

The 6-foot SJT 3-Prong 14AWG power cord provides flexibility in placement, allowing you to easily reach outlets across desks, entertainment centers, or workbenches. The 36-degree flat plug design makes it easy to fit behind furniture and tight spaces without bending or damaging the cord—ideal for modern living spaces and professional setups.

Constructed from durable, heat-resistant white plastic, the power strip complements any décor while providing long-lasting reliability. Internally, advanced components maintain a clamping voltage of 500V (L-N), 600V (L-G), and 500V (N-G), ensuring precise, responsive surge suppression that meets the highest safety standards.

Whether you’re setting up a smart home system, managing office technology, or organizing an entertainment center, the 12-Outlet Surge Protector Power Strip delivers unmatched protection, power capacity, and convenience. Its combination of robust surge protection, fast USB charging, intelligent design, and safety certification makes it an essential tool for any environment that values both performance and peace of mind.

- **High Surge Protection:** Provides robust 3600 joules of surge protection to guard sensitive electronics against power spikes and voltage fluctuations
- **All-in-One Power Hub:** Features 12 AC outlets, 2 USB-C ports, and 1 USB-A port, offering versatile charging for computers, monitors, printers, smartphones, and tablets
- **Fast USB Charging:** Equipped with 30W Power Delivery (PD) via USB-C for rapid charging of modern devices including laptops, tablets, and phones
- **Space-Saving Flat Plug:** Designed with a 36-degree flat plug that fits neatly behind furniture and tight spaces without bending the cord
- **Reliable Electrical Performance:** Rated 15A, 120V, 60Hz, 1800W, ideal for high-demand electronics and small appliances
- **Advanced EMI/RFI Noise Filtering:** Reduces interference up to 40dB, ensuring cleaner power delivery for improved device performance and signal clarity
- **2-in-1 Power & Breaker Switch:** Combines a master on/off control with an integrated circuit breaker for overload protection and added safety
- **LED Protection Indicator:** Easy-to-see LED light shows power and surge protection status at a glance
- **Precision Surge Clamping:** Clamping voltages of L-N 500V, L-G 600V, N-G 500V provide rapid response and reliable suppression during electrical surges

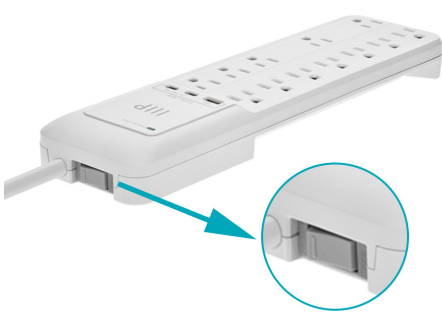

3600 JOULES OF ADVANCED SURGE PROTECTION

Engineered with high-capacity surge suppression, this power strip absorbs up to 3600 joules of excess energy from lightning strikes, power spikes, and voltage fluctuations. This robust protection shields your valuable electronics—such as TVs, computers, routers, and audio systems—from costly electrical damage.

FAST-CHARGING USB-C & USB-A PORTS (30W PD)

Equipped with two USB-C ports and one USB-A port, this power strip delivers up to 30W Power Delivery (PD) for rapid charging of laptops, tablets, and smartphones. Enjoy fast, efficient power delivery without needing extra charging bricks, reducing clutter on your desk or entertainment area.

2-IN-1 POWER & CIRCUIT BREAKER SWITCH

The built-in power switch and resettable circuit breaker combine into one intuitive control, providing quick on/off functionality and reliable overload protection. In case of excessive load, the breaker trips to cut power—protecting both your devices and the surge protector itself.

Full Specs

P/N	47953
Electrical Rating	15A, 120V, 60Hz, 1800W
Clamping Voltage	L-N 500V, L-G 600V, N-G 500V
Joules Rating	3600 Joules
USB Charger	2x USB-C, 1x USB-A, (Total 30W PD)
LED Indicators	Yes
Switch Type	2 in 1 Power & Breaker Switch
Emi/Rfi Filtering	40dB
Cord Spec	14AWG, SJT, 3-Prong, 6ft
Plug Type	36 Degree Flat Plug
Housing Material	Plastic
Color	White
Dimensions	11.92" x 3.31" x 1.28"

PACKAGE CONTENTS

- 1x Monoprice™ 12-Outlet Surge Protector Power Strip – 3600 Joules, 2 USB-C® + 1 USB-A (30W PD), 6ft Power Cord, Flat Plug, White
