

Monoprice™

Cat6A Ethernet Patch Cable - Slim, Flat, U/FTP, 32AWG, Molded Boot

High-Speed 10G Ethernet in a Super Slim, Flexible Design

The Monoprice™ Cat6A Slim Flat Ethernet Patch Cable combines ultra-thin 32AWG construction with reliable 10 Gigabit performance for the ultimate space-saving network solution. Compared to thicker 30AWG models, this cable offers even greater flexibility for routing through tight spaces, under carpets, or behind equipment—without compromising speed or signal quality. Built with stranded pure bare copper conductors and U/FTP (Unshielded Foiled Twisted Pair) shielding, it supports up to 550MHz bandwidth and delivers stable, interference-free connections—ideal for gaming, streaming, and other high-bandwidth applications. A molded strain-relief boot enhances durability by protecting the RJ45 connectors from wear during frequent use. Certified to TIA/EIA-568-C.2 standards, this cable provides dependable performance and professional-grade cable management in any setup.

- Supports 10 Gigabit Ethernet speeds and 550MHz bandwidth for fast, reliable data transmission in demanding applications
- Ultra-thin 32AWG stranded pure bare copper conductors provide exceptional flexibility for tight routing and clean installations
- Flat cable profile reduces clutter and easily fits under carpets, along baseboards, or behind equipment
- U/FTP shielding minimizes electromagnetic interference and crosstalk for consistent, stable performance
- Durable molded strain-relief boot protects RJ45 connectors from bending and wear during frequent use
- Easier cable management with a slimmer diameter that improves airflow and organization in racks or tight spaces
- Complies with TIA/EIA-568-C.2 standards for trusted performance and compatibility in residential and commercial networks
- Available in multiple lengths and colors to suit a wide range of networking setups and preferences

ULTRA-THIN 32AWG DESIGN FOR MAXIMUM FLEXIBILITY

The slimmer 32AWG construction makes this cable even easier to route through tight spaces, under carpets, and behind furniture, while still delivering full Cat6A 10G performance.

HIGH-SPEED 10 GIGABIT PERFORMANCE

Supports up to 10Gbps data rates and 550MHz bandwidth for smooth streaming, gaming, and data-intensive workloads without lag or signal loss.

SHIELDED FOR STABLE, INTERFERENCE-FREE SIGNALS

U/FTP shielding reduces electromagnetic interference and crosstalk, ensuring stable connections even in high-density or noisy network environments.

Full Specs

P/N	48125, 48124, 48123, 48122, 48121, 48120, 48119, 48118, 48117, 48116, 48115, 48114, 48113, 48112, 48111, 48110, 48109, 48054, 48108, 48107, 48106, 48105, 48104, 48103, 48102, 48101, 48100, 48099, 48098, 48097, 48096, 48095, 48094, 48093, 48092, 48091
Cable Type	Cat6A Slim Flat Ethernet Patch Cable
Ethernet Compatibility	10GBase-T (10 Gigabit Ethernet)
Bandwidth	550 MHz
Conductor Type	Stranded, Pure Bare Copper
Conductor Gauge	32 AWG
Shielding	U/FTP (Unshielded Foiled Twisted Pair)
Jacket Material	PVC
Boot Type	Molded Strain-Relief Boot
Connector Type	RJ45 Male to RJ45 Male
Compliance Standards	TIA/EIA-568-C.2, RoHS Compliant
Color Options	Black, Blue, White (varies by SKU)
Length Options	0.5 ft to 50 ft (varies by SKU)
