

Keymox™

USB-C to USB-A 3.0 4-Port Hub

Easily Connect Multiple Legacy USB Devices to a USB-C Port

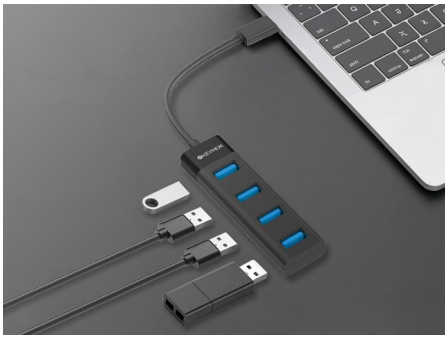

Discover seamless connectivity and high-speed performance with the KEYMOX 4-Port USB-C to USB-A 3.0 Hub. Designed for versatility and efficiency, this compact hub instantly expands a single USB-C port into four ultra-fast USB-A 3.0 ports—perfect for connecting flash drives, keyboards, mice, cameras, and other USB devices.

With data transfer speeds up to 5Gbps, you can move large files or HD movies in mere seconds, making it an essential accessory for home, office, or travel. Its lightweight, pocket-sized design makes it easy to carry anywhere, while broad compatibility ensures effortless operation with Windows, macOS, and Linux systems.

Whether you're a student, professional, or tech enthusiast, the KEYMOX hub provides reliable, plug-and-play expansion for your laptop or desktop, supporting up to two external hard drives and a variety of USB accessories with ease.

Note: This hub is optimized for data transfer only and does not support device charging. For best performance, keep connected devices within a combined power draw of 900mA.
