

Monoprice™

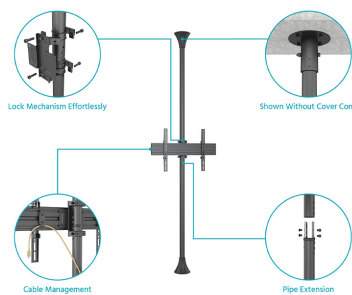

Commercial Series Floor to Ceiling TV Mount for Menu Board Displays & Order Kiosks, Fits 32" to 75" TVs

The Monoprice Commercial Series Floor to Ceiling TV Mount is designed for professional menu board displays and order kiosks where wall or ceiling mounting is impractical. It supports 32" to 75" TVs, anchors securely between the floor and ceiling, and provides a rigid, single display solution for high traffic commercial environments. This mount is ideal for restaurants, retail locations, and kiosks that require a clean vertical presentation without permanent wall construction.

FLOOR TO CEILING MOUNTING WITHOUT WALL PENETRATION

The mount uses a floor to ceiling compression design, transferring load vertically between structural surfaces. This enables installation in glass front locations, tiled walls, or areas where wall mounting is restricted.

SUPPORTS LARGE COMMERCIAL DISPLAYS

Supports 32" to 75" displays with a maximum load capacity of 110 lb (50 kg) per screen. Compatible with VESA mounting patterns from 100×100 to 400×400 mm, covering most commercial flat panel displays.

ADJUSTABLE HEIGHT FOR OPTIMAL VIEWING

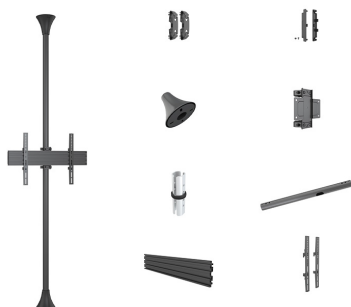

The vertical support column allows display height adjustment, with a maximum structure height of approximately 3100 mm (122.0 in) to accommodate different ceiling heights and sightline requirements.

COMMERCIAL GRADE STEEL CONSTRUCTION

Steel construction with included anchors and fasteners provides long term rigidity and resistance to movement. The mount is intended for indoor commercial use only and should be installed by qualified professionals.
