

Monoprice™

Commercial Series Heavy-Duty Long Pole Ceiling Mount for Landscape Displays, Fits 43"–86" TVs

The Monoprice Commercial Series Heavy-Duty Long Pole Ceiling Mount (P/N 49346) is a professional-grade solution for suspending large-format displays from structural ceilings in retail, corporate, and public venues. It supports 43" to 86" landscape-oriented displays up to 132 lb (60 kg) and provides controlled tilt, swivel, and rotation for precise alignment in high-traffic environments.

Designed for AV installers and facilities teams, this mount delivers structural rigidity, VESA-wide compatibility, and compliance documentation suitable for enterprise and government projects.

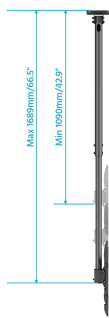

SUPPORTS LARGE, HEAVY DISPLAYS SAFELY

Rated for 132 lb (60 kg) maximum load, the steel long-pole structure distributes weight vertically into the ceiling anchor plate, reducing shear stress at the display interface. This load rating is defined in the approved specification and user manual.

WIDE VESA COMPATIBILITY FOR INSTALLER FLEXIBILITY

Compatible with VESA® mounting patterns from 200×200 to 600×400, covering the majority of 43"–86" flat or curved landscape displays used in signage and conference environments.

LONG-POLE DROP WITH FINE HEIGHT ADJUSTMENT

The telescoping pole assembly provides an adjustable vertical drop range of approximately 51.4" to 74.9" (1305–1905 mm ±15 mm) measured from ceiling plate to display interface, enabling alignment with sightlines in retail aisles and lobbies.

COMMERCIAL-GRADE INDOOR CONSTRUCTION

Steel construction with reinforced joints is intended for indoor commercial use only, as stated in the safety and installation guidelines. Professional installation and periodic inspection are required.

Full Specs

Product Number	49346
Display Orientation	Landscape
Supported Screen Size	43" – 86"
Maximum Load Capacity	132 lb (60 kg)
VESA Compatibility	200×200 to 600×400
Vertical Drop Range	51.4" – 74.9" (1305 – 1905 mm ±15 mm)
Tilt Range	–25° to 0°
Level Adjustment	±3°
Swivel Range	±60°
Rotation	±180°
Intended Use	Indoor, commercial
Installation Requirement	Professional installation recommended
Net Weight	~15.8 lb (7.2 kg)
Construction Material	Steel

PACKAGE CONTENTS

- Ceiling mounting plate
- Telescoping steel pole sections
- Display mounting rails and brackets
- Full hardware kit (anchors, bolts, spacers)
- Installation manual
