

Monoprice™

Commercial Series Floor to Ceiling Wire Mount System for Landscape Displays, Fits 43" to 65" TVs

The Monoprice Commercial Series Floor to Ceiling Wire Mount System for Landscape Displays delivers a clean, modern solution for mounting landscape oriented displays using a tensioned wire system that runs from floor to ceiling. Ideal for retail, corporate, and hospitality environments, this design minimizes visual clutter while maintaining commercial grade strength and stability.

Engineered for professional AV installations, the mount supports landscape displays from 43" to 65", making it well suited for digital signage, menus, information displays, and promotional content in high visibility indoor spaces.

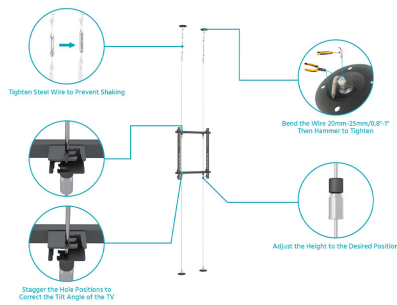

FLOOR TO CEILING WIRE MOUNT ARCHITECTURE

A tensioned wire system anchors securely between the floor and ceiling, creating a sleek "floating" appearance without the need for wall mounting—ideal for glass walls and open architectural designs.

LANDSCAPE DISPLAY ORIENTATION

Designed specifically for landscape mode displays, supporting widescreen content such as menus, dashboards, directories, and advertising panels.

ADJUSTABLE MOUNTING HEIGHT

The wire system allows installers to position the display at the desired height within the available floor to ceiling span, enabling flexible placement for varying room layouts and viewing distances.

COMMERCIAL GRADE LOAD SUPPORT

Supports displays up to 66lb (30kg) per screen, providing reliable performance for professional flat panel displays in continuous operation environments.
