

Monoprice™

Commercial Series Suspended Wire Ceiling Mount for Window-Shopping – Fits 43" to 65" TVs

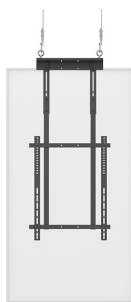

The Monoprice Commercial Series Suspended Wire Ceiling Mount for Window-Shopping is designed for high visibility, storefront and window-facing displays where clean aesthetics and minimal structure are essential. Using a suspended wire system, this mount allows a portrait-oriented display to appear as if it is floating—ideal for retail windows, malls, and showrooms.

Engineered for professional AV installations, it supports portrait displays from 43" to 65", delivering a modern presentation while maintaining commercial-grade strength and safety.

DESIGNED FOR WINDOW-FACING DISPLAYS

The suspended wire design minimizes visual clutter, making it ideal for window shopping applications where the display should attract attention without obstructing product views behind it.

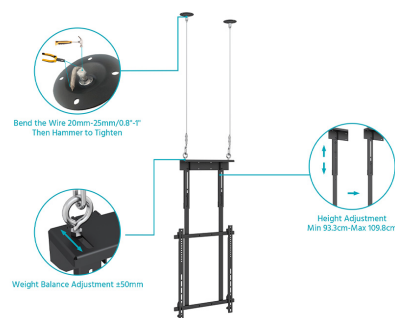

PORTRAIT ORIENTATION FOR VERTICAL CONTENT

Optimized for portrait mode displays, perfect for digital posters, promotions, menus, and advertising content commonly used in storefront signage.

SUSPENDED WIRE CEILING MOUNT SYSTEM

High strength steel wires suspend the display from the ceiling, creating a clean, architectural look while maintaining stability for indoor commercial use.

ADJUSTABLE DROP LENGTH

Includes suspended wire hardware allowing installers to set the display at the desired height for optimal visibility in retail and public environments.
