

Monoprice™

Commercial Series Heavy Duty Free Standing Large Screen Floor Mount for Portrait Displays, Fits 43"– 90" TVs

The Monoprice Commercial Series Heavy Duty Free Standing Large Screen Floor Mount for Portrait Displays provides a stable, professional solution for large portrait oriented displays in indoor commercial environments where wall mounting is not practical. Designed for professional AV installations, it delivers structural stability and long term reliability without requiring wall or ceiling attachment.

The mount is well suited for digital signage, wayfinding, and information displays in public spaces such as lobbies, malls, atriums, and transportation hubs.

FREE STANDING FLOOR MOUNT DESIGN

The mount uses a self supporting floor base and vertical support structure to securely hold large flat panel displays. It is intended for indoor installation on stable, level flooring and does not require attachment to surrounding structures.

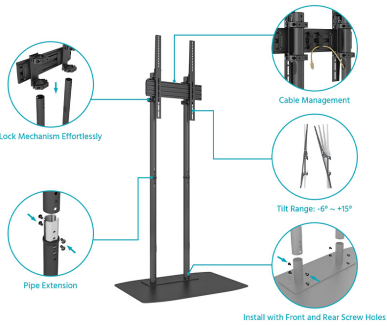

OPTIMIZED FOR PORTRAIT DISPLAY ORIENTATION

The mounting interface is designed specifically for portrait orientation, supporting vertical screen layouts commonly used for directories, promotional signage, menus, and informational displays.

SUPPORTS LARGE DISPLAYS FROM 43" TO 90"

Compatible with flat panel displays ranging from 43 inches to 90 inches, using standard VESA compatible mounting interfaces.

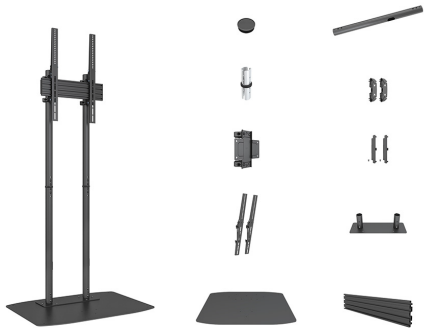

MECHANICAL TILT CAPABILITY

The product drawing confirms mechanical tilt adjustment, allowing installers to finetune viewing angle during setup for optimal visibility.
