

Monoprice™

Monoprice Commercial Series Push to Pop Out Video Wall TV Mount for Recessed Displays Fits 17" to 42" TVs

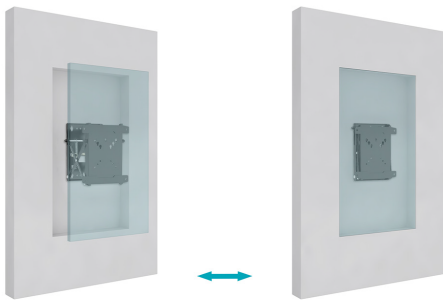

The Monoprice Commercial Series Push to Pop Out Video Wall TV Mount for Recessed Displays is engineered for professional AV environments that require flush aesthetics with fast service access. Designed specifically for recessed wall installations, the integrated push to release scissor mechanism allows displays to extend forward for rear access during maintenance, then return securely to a flush mounted position.

This mount supports small format commercial displays from 17" to 42" and is intended for indoor, professionally installed video wall applications.

PUSH TO POP OUT SERVICE ACCESS

The integrated push to release scissor mechanism allows the display to extend outward from the recessed wall cavity to provide easy access for cable routing, service, and maintenance. Once service is complete, the display locks back into a closed position, restoring a clean, flush appearance and minimizing handling time.

PURPOSE BUILT FOR RECESSED VIDEO WALL INSTALLATIONS

The compact frame and extension geometry are optimized for recessed applications, allowing displays to align with the finished wall surface while still providing forward service access. Designed for indoor use only in controlled commercial environments.

SUPPORTS 17" TO 42" COMMERCIAL DISPLAYS

Compatible with flat panel commercial displays ranging from 17 inches to 42 inches, making it ideal for control rooms, digital signage walls, corporate interiors, and retail video walls.

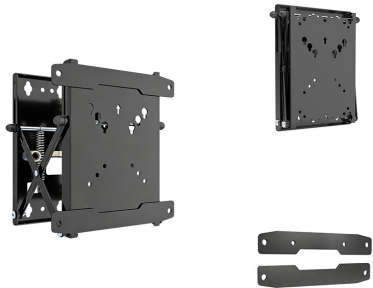

LANDSCAPE OR PORTRAIT ORIENTATION

Supports both landscape and portrait orientations, providing layout flexibility without the need for additional adapters.

Full Specs

Product Type	Push to Pop Out Video Wall TV Mount
Intended Installation	Recessed wall video wall applications
Supported Display Size	17" to 42"
Orientation Support	Landscape and Portrait
Maximum Load Capacity	55 lb (25 kg) per screen
VESA® Compatibility	50 × 50 up to 200 × 200 mm
Extension Mechanism	Push to release scissor mechanism
Installation Environment	Indoor use only
Structural Requirement	Wall must support ≥ 5× total mounted load
Compliance	RoHS
Dimensional Reference	See product technical drawing

PACKAGE CONTENTS

- Push to pop out video wall mount assembly
- Commercial grade mounting hardware (per component checklist)
- Installation manual
