

Monoprice™

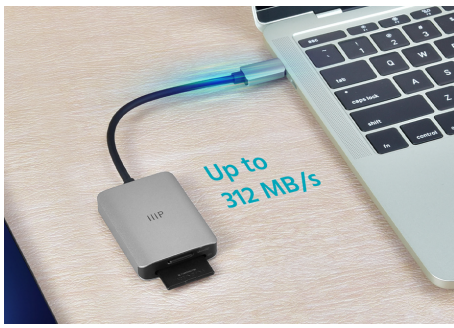

Monoprice Dual USB-C Card Reader with SD & microSD Support, Up to 312 MB/s

The Monoprice Dual USB-C Card Reader lets you read and write to SD and microSD cards simultaneously via a single USB-C connection. Designed for USB-C laptops, tablets, and phones, it supports UHS II media with transfer speeds up to 312 MB/s, making it suitable for business workflows, education environments, and everyday file access without technical setup.

READ TWO CARDS AT ONCE FROM ONE USB-C PORT

You can access files from an SD card and a microSD card simultaneously without swapping adapters or reconnecting cables. The reader includes dedicated SD and microSD slots and supports concurrent operation over a single USB-C host connection.

HIGH SPEED TRANSFERS FOR LARGE FILES

Large documents, photos, and videos are copied faster, reducing wait time during backups or file sharing. The reader supports UHS-II media with data transfer speeds up to 312 MB/s, as specified by the Secure Digital UHS-II standard. Actual speed depends on the card and host device.

BROAD MEDIA COMPATIBILITY

You can use older cards as well as newer high capacity media without changing readers. Supported standards include SD, SDHC, SDXC, UHS I, UHS II, Secure Digital v1.0 through v5.0, DDR200 mode, and MultiMediaCard (MMC) formats with capacities up to 2 TB.

USB-C FOR MODERN LAPTOPS AND TABLETS

One connector works across newer business and education devices without legacy USB adapters. The reader uses a USB Type-C male connector with a USB 3.0 interface, while remaining backward-compatible with USB 2.0 hosts.

Full Specs

Product Type	Dual USB-C Card Reader
Host Connector	1 × USB-C male
Card Slots	1 × SD, 1 × microSD
Supported Media	SD, SDHC, SDXC, UHS I, UHS II, Secure Digital v1.0–v5.0, MMC
Maximum Transfer Speed	Up to 312 MB/s (UHS II)
Maximum Card Capacity	Up to 2 TB
USB Interface	USB 3.0 (backward compatible with USB 2.0)
Power	USB bus powered
Cable Length	Approx. 6 in (150 mm)
Weight	Approx. 1.2 oz (34 g)
Operating Temperature	32 °F to 113 °F (0 °C to 45 °C)
Storage Temperature	14 °F to 158 °F (10 °C to 70 °C)
Operating Humidity	10–85% RH, non condensing
Storage Humidity	5–90% RH, non condensing
Country of Origin	Vietnam

PACKAGE CONTENTS

- 1× Monoprice Dual USB-C Card Reader
- 1× User Manual
