

Monoprice™

USB 2.0 USB-A to USB-C Silicone Cable, 3ft / 6ft / 10ft, Charge & Sync, 480Mbps Data, Soft-Touch Flexible Jacket

The Monoprice USB 2.0 USB-A to USB-C Silicone Cable is an everyday charge-and-sync cable that replaces the stiff PVC cable packaged with most phones and tablets. The silicone jacket stays flexible at room temperature and resists the permanent bends and creases that develop in lower-cost cables. It charges phones, tablets, controllers, and small accessories from any standard USB-A port and syncs data at the USB 2.0 rate, which covers phone-to-laptop transfers, controller updates, and wired Android Auto.

Built around length-optimized conductor gauges so charging performance holds up across the longer runs. The 3ft cable uses 24AWG power conductors and a 4.25mm outer diameter; the 6ft cable steps up to 22AWG; and the 10ft cable uses 20AWG with a slightly larger 4.6mm jacket. In factory inspection, each length held conductor voltage drop under 500mV on Vbus. Aluminum connector shells with gold-plated contact pins finish a cable that costs less than premium-brand alternatives without giving up the build details that matter for daily use.

Sold in four colors (Black, White, Blue, Gray) and three lengths (3ft, 6ft, 10ft), as singles, 2-packs in matching lengths, or mixed-length 3-packs that cover desk, nightstand, and across-the-room use in one purchase.

- Flexible silicone jacket that resists set memory. Returns to straight after coiling instead of holding the permanent bends that shorten the life of PVC cables.
- Charges USB-C devices from any USB-A port: wall chargers, car ports, laptops, hubs. Length-optimized power conductor gauges (24AWG at 3ft, 22AWG at 6ft, 20AWG at 10ft) keep voltage drop low across every run.
- USB 2.0 data at 480Mbps for phone-to-laptop sync and wired Android Auto. Full USB-C pin assignment including the CC line; works as a sync cable as well as a charge cable.
- Aluminum connector shells with gold-plated contact pins. Reinforced TPE strain relief at each end resists the wiggle-induced contact wear that breaks down lower-cost cables.
- Four jacket colors (Black, White, Blue, Gray) and three lengths (3ft, 6ft, 10ft). Assign a different color to each charging spot so cables stop wandering.
- Single, 2-pack matched-length, or mixed-length 3-pack options. The 3-pack ships one 3ft, one 6ft, and one 10ft for desk, nightstand, and across-the-room use.
- Works with any USB-A host: computers, wall chargers, car USB ports, USB hubs, and power strips with USB built in. No drivers, no setup.
- Backed by the Monoprice lifetime warranty. Made in Vietnam.

FLEXIBLE SILICONE JACKET

The outer silicone jacket is a much softer and flexible alternative to a standard polyvinyl chloride (PVC). The silicone material is soft to the touch and resists tangles and creases that can develop in a lesser quality PVC cable over time. The silicone material resists dust, dirt, and fingerprints, which provides a premium feel when connecting your devices.

CHARGES USB-C DEVICES FROM ANY USB-A PORT YOU ALREADY OWN

Plug it into the wall charger, car port, laptop, or USB hub you already have and top up a phone, tablet, controller, or small accessory. It's certified by USB-IF to meet all electrical, mechanical and environmental standards, ensuring a superior user experience and compatibility.

USB 2.0 DATA AT 480MBPS FOR SYNC AND BASIC FILE TRANSFER

Supports data transfer speeds up to 480 Mbps for quick and efficient syncing of photos, music, and files. Move photos and documents between a phone and a laptop, plug a controller into a console, or connect your cell phone to a charger.

Full Specs

Connector A	USB Type-A male
Connector B	USB Type-C male
Data Standard	USB 2.0
Maximum Data Rate	480 Mbps
Charging	Standard USB-A (5 V)
Conductor Voltage-Drop Test	Vbus < 500 mV, GND < 250 mV
Cable Lengths Offered	3 / 6 / 10 ft
Conductor Gauge, 3 ft Cable	24 / 30 AWG
Conductor Gauge, 6 ft Cable	22 / 29 AWG
Conductor Gauge, 10 ft Cable	20 / 26 AWG
Outer Cable Diameter, 3 ft & 6 ft	4.25 mm
Outer Cable Diameter, 10 ft	4.6 mm
Cable Jacket Material	Silicone over TPE strain relief
Connector Shell Material	Nickel-plated aluminum, gray finish
Pin Plating	Gold
Pin Assignment (USB-C End)	Vbus (B4, B9, A4, A9), D- (A7), D+ (A6), GND (A1, A12, B1, B12), CC (A5) via 56 kilo-ohm pull-up
Contact Resistance, 3 ft & 6 ft	<= 3 ohm
Contact Resistance, 10 ft	<= 4 ohm
Insulation Resistance	>= 10 M-ohm
Available Colors	Black, White, Blue, Gray
Pack Configurations	Single, 2-Pack (same length), 3-Pack (3 ft + 6 ft + 10 ft mixed)
Country of Origin	Vietnam
Operating Temperature	-10°C to 55°C
Packaging	Retail polybag with hang-tab card and barcode.

PACKAGE CONTENTS

- Single-Cable SKUs (49702-49713): 1 × USB-A to USB-C Silicone Cable
- 2-Pack SKUs (49714-49725): 2 × USB-A to USB-C Silicone Cables
- 3-Pack SKUs (49726-49729): 3 × USB-A to USB-C Silicone Cables (3ft, 6ft, and 10ft)
