

Epoxy dome material

Mini XLR Interface

3m (Detachable cable)
with 6.35mm adapter

Description:

1. This is a professional-grade monitoring headphone with high-fidelity sound quality.
2. The self-adjustable suspension headband enhances wearing freedom and comfort.
3. The earmuffs adopt an envelope design and are made of soft, comfortable cortical material, featuring good breathability and skin-friendliness.
4. It is equipped with built-in soundproofing sponge to block external noise, allowing users to be more absorbed in and feel more immersive.
5. We use a strong, durable cable, which ensures stable signal and fast transmission.
